Chapter 5. Purchasing your Beverages

Once you have decided how many servings of each kind of beverage, we will help you to convert servings to bottles or cases.

When you know how many bottles or case of each beverage you want, we walk you though the current pricing lists for each beverage.

These lists change monthly as the supply and prices fluctuate continuously. A current print out is available from the Aspen Grove office.

You can buy from our stock inventory with a case discount of 10%. Unopened bottles can be returned for refund.

We also have access to literally hundreds of brands and labels and will be happy to research availability and prices. Special Orders cannot be returned, but are yours to take home with you.

Then all you have to do is show up! We will deliver beverages & ice, and help your bartenders set up about an hour before your event.
